

LVV Self-Review Form – TECHNICAL PART (v2 - April 2008)

For every 6-month period since the date of my last Land Transport New Zealand PRS review, which took place on....., I have reviewed not less than four low volume vehicle standards, as specified below. I have focused on those standards that are the most appropriate to the type of LVV certification work I do.

Note: It is a requirement that one of these TECHNICAL PART Self-Review Records is completed during each 6-month period.

<i>Certifier name</i>	<i>Signature</i>
-----------------------	------------------

Date:	LVV Standard reviewed:
I've read through it, and I'm satisfied that my knowledge of the standard is as good as it could be; (tick or initial) or	
My knowledge of the standard has improved because:	

I've read through it, and I'm satisfied that my inspections have been as good as they could be; (tick or initial) or	
I've improved my inspections because:
